

ABOUT THE COLLEGE

Malla Reddy College of Engineering and Technology (MRCET-Autonomous) is established in the year 2004, approved by AICTE, New Delhi and permanently affiliated to JNT University, Hyderabad. The College is offering B.Tech and M.Tech Programmes in the areas of Computer Science and Engineering, Electronics & Communication Engineering, Information Technology, Aeronautical Engineering, Mechanical Engineering, Mining Engineering and Master in Business Administration (MBA). The college also has UGC Autonomous status for both Engineering and Management Programs. The college is also accredited by National Board of Accreditation (NBA) and NAAC with 'A' Grade. The Institution is certified with ISO 9001:2015

About the Department

The Department of Information Technology was established in the year 2007. The Department offers a four year B.Tech. degree program in Information Technology with an annual intake of 180 students with specific emphasis on engineering technologies and empirical mode of learning. The programme ensures that the student effectively meets the highest benchmarks of competence required by the industry. Students' forums such as CSI & ISTE were formed mainly to encourage and motivate students to organize various co-curricular activities conducted by the students. The department has been accredited by NBA&NAAC.

Preamble

Block chain and Devops are contemporary topics abreast and invogue to the rapidly changing trends in the IT industry. Block chain is the chain of blocks where each block contains data of value without any supervision which is cryptographically secure and immutable. It allows digital technology to be distributed but not copied. DevOps is the software development methodology that combines software development(Dev) with information technology operations(Ops). It increases the Organization capability to deliver services and applications at high velocity.

Objective

- To create the awareness about the current trend concepts on Block chain technology and DevOps
- To furnish the participants with the foundations of these technologies – Underlying security concepts and software engineering concepts for Blockchain and DevOps respectively
- To facilitate the attendees in acquiring the knowledge of tools and technologies relevant to both the topics.

Topics to be covered

- Evolution of BlockChain Technology
- Blockchain for Enterprise & Hyperledger development environment
- DevOps for delivery of applications at Highvelocity
- Containerization using Docker
- Tools for configuration Management, Automatic builds, Monitoring & Testing

Resource Persons

Eminent Speakers from IIT Hyd, IIIT Hyd, Osmania University, JNTUH, NIT, RCI,CDAC,STPI etc
